Publisher's Note: "Accurate Atomic Transition Probabilities for Hydrogen, Helium, and Lithium" [J. Phys. Chem. Ref. Data 38, 565 (2009)]

W. L. Wiese and J. R. Fuhr^{a)}

National Institute of Standards and Technology, Gaithersburg, Maryland 20899, USA

(Received 22 September 2009; published online 31 December 2009)
[doi:10.1063/1.3254213]

Key words: allowed and forbidden transitions; atomic transition probabilities; f values; helium; hydrogen; line strengths; lithium; oscillator strengths.

This article was originally published online on 24 June 2009 with incorrect breaks in the ranges in Table 14. This error resulted in an incorrect pagination in the PDF version of the September 2009 Table of Contents which contained 6 additional pages for the article. AIP apologizes for these errors. All online versions of the article and the PDF version of the Table of Contents were corrected on 23 September 2009; the article was correct as it appeared in the printed version of the journal.
